1. INTRODUCTION

This document specifies the terms and conditions for the use of the DCL Mark in accordance with the DCLD Product Certification Schemes.

2. DCLD PRODUCT CERTIFICATION SCHEMES

DCLD Product Certification Schemes covered in this document are:

- DCLD Product Certification Through Factory Assessment
- Technical Approval of Non-Standard Products
- Bareeq Certification (Good Jewellery Trading Practice)
- Ready Mix Concrete (Plant and Truck) Certification Scheme

3. THE DCL MARK

The design of the DCL Mark shall be in accordance with the illustrations as shown in Annex A

4. TERMS AND CONDITIONS FOR THE USE OF THE DCL MARK

- 4.1 Dubai Central Laboratory Department (DCLD) of Dubai Municipality is the legal owner of the DCL Marks (hereinafter referred to as the Mark) as shown in Annex A and has the sole authority to grant or withdraw the right to use it.
- 4.2 The right to use the Mark is granted to an establishment (Licensee) who has been issued a Certification License under a Certification scheme implemented by DCLD, Dubai Municipality.
- 4.3 When using the Mark, the licensee shall always use it together with the corresponding Certification License Number (which is unique to the Licensee) and the Standard Specification Number (for standard products) upon which the license is being issued or the product name for the non-standard products certified under the technical approval scheme (See details in Annex A, and exceptions under certain situations in clause [4.5]).
- 4.4 For product certification schemes, the Licensee shall affix the Mark only on products covered by the Certification License, and in accordance with the marking proposal that is approved by the DCLD Certification Body. In case marking or stamping of the Mark on the product is not possible, the Mark may be affixed on the packaging or label of the product.

- 4.5 The Licensee may affix the Mark on company stationery and company forms and in publicity and promotional materials and other forms of media advertising provided that it is not used in such manner that the DCLD may consider as misleading or inappropriate.

Under certain situations and for practical reasons, the Licensee may be allowed to put the Mark on company stationery or other company forms (such as delivery receipt, Invoice, quotations) without indicating the Standard Specifications Number and License Number. This is subject to the approval by DCLD.

(Example: If the Licensee has multiple licenses for different products or different branches, they may be allowed to put only one mark instead of multiple marks on their stationery or form).

- 4.6 The Licensee may enlarge or reduce the Mark to an appropriate size provided that it is reproduced in exactly the same design and proportion (L : W ratio).
- 4.7 Alternative color (Example: black & white) may be used by the licensee subject to the approval of the DCLD.
- 4.8 If, for any reason, the Certification License has been withdrawn or cancelled, the licensee must immediately stop using the Mark (on the products, plants, trucks and company stationery or company forms) and, where necessary, (or as directed by the DCLD Certification Body) withdraw any product carrying the Mark.
- 4.9 Correct use of the Mark is a contractual obligation. Intentional misuse of the Mark may be grounds for cancelling the Certification License. The provisions of ISO Guide 27 "Guidelines for corrective action to be taken by a certification body in the event of misuse of its mark of conformity" shall apply if appropriate.
- 4.10 The DCLD Certification Body, through any means available will monitor the use of the Mark.
- 4.11 The Mark as shown in Item 5 of the Annex A is registered with the UAE Ministry of Economy and is protected under UAE Laws. DCLD may incorporate additional information into the protected logo and authorize its use by DCLD certification clients in accordance with these Terms and Conditions.
- 4.12 For some specific schemes (i.e. steel bars, ready mix concrete plants and trucks, etc.), and whenever necessary, the DCLD Certification Body may issue supplementary requirements which shall be read in combination with this document.
